

Tacoma Mall

The City of Tacoma is the region’s second most populous city and Pierce County’s seat. Tacoma’s location halfway between Olympia and Seattle provides it access to many modes of transportation, natural resources, economical power sources, and a deep, sheltered harbor, all of which have contributed to Tacoma’s development as a successful industrial, commercial and trading center. The modern city has its beginnings in the mid-nineteenth century, when it was designated as Northern Pacific Railroad’s western terminus for its transcontinental railroad in 1873. The city itself was incorporated in 1884. Tacoma continues its tradition as a hub for trade, with the Port of Tacoma among the most important in the nation and the Pacific Rim. Regional shopping centers such as the Tacoma Mall have emerged to provide goods and services for the city and the region, while the emphasis in downtown has changed to professional offices, international finance, government, education, and cultural facilities. The city has many historic neighborhoods and a number of colleges and universities.

Lying approximately two miles southwest of the Downtown Tacoma regional growth center, the Tacoma Mall area is an important retail district within the city. Tacoma anticipates that the Tacoma Mall regional growth center will remain as the city’s major retail center, and that it will accommodate future growth. The city plans for the center to accommodate the development of new office, supporting retail and multifamily residential uses. After the Downtown center, the Tacoma Mall area is seen as the next highest area of concentrated development in the city, with a possible range of building heights between one and 10 stories, and activity levels greater than in most areas of the city.

Acreage, Density & Mix of Activity

Tacoma Mall is a medium-sized regional growth center in terms of total gross acreage (485 acres) with a net developable acreage of 394 acres (81% of gross acres). In terms of its role in the city, the Tacoma Mall regional center contains 1.5 percent of the city's overall land area, 2 percent of the population, 2 percent of the housing, and 7 percent of the city's employment. Compared to centers as a whole, Tacoma Mall has a smaller number of total activity units (10,932), with mostly employment-oriented activity (66% jobs/33% residents) and a moderate density of activity (22.5 units per gross acre).

Urban Form

Tacoma Mall's average parcel size is 0.4 acres, which is significantly smaller than the 1.1-acre average size for growth centers. Tacoma Mall provides a moderately walkable pedestrian environment, with a very limited network of sidewalks (64% coverage) and very large blocks with a 10.5 acre average size.

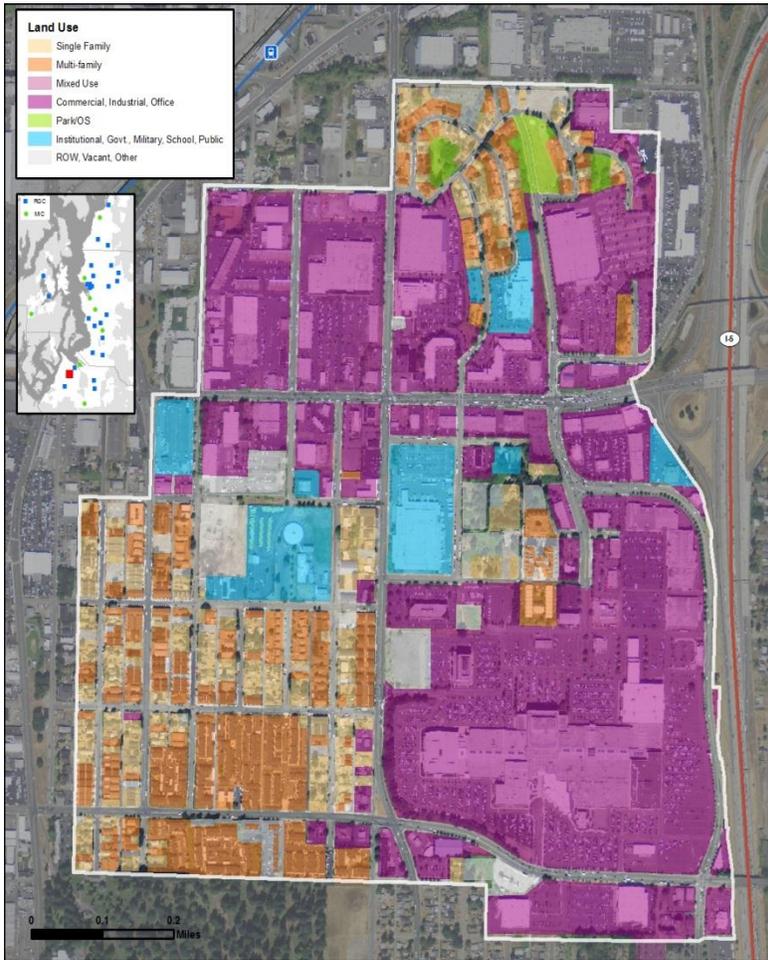

2010 Summary Statistics

combined). At 58 percent, Tacoma Mall's racial diversity is significantly greater than the region's 27 percent share of non-white residents. The groups with the highest shares in Tacoma Mall are White (42%), African American/Black (25%), and Other (21%). Twenty-one percent of residents identify as Hispanic.

Employment

The total employment in Tacoma Mall is 7,171, and it has decreased by 570 jobs over the past 10 years. The major industry sectors are Retail (45%), Services (26%) and Government (18%). Major employers are retailers located in the Tacoma Mall.

Housing

Tacoma Mall has 1,916 total housing units, with a density of four housing units per gross acre. Over the past 10 years, housing has grown by 605 units (46% increase). Based on Census Block Group data, Tacoma Mall has a large share (54%) of single family and 2- to 4- unit multifamily dwellings and a significant share of 5- to 19- and 20+ unit multifamily (45%). In terms of unit affordability, Tacoma Mall's owner-occupied housing tends to be significantly less expensive than the region as a whole (based on Census Block Group data). The center's share of units under \$300,000 is 92 percent, whereas the region's share is 38 percent. The center's share of units over \$500,000 category is 0 percent, whereas the region's is 25 percent.

Transportation

For work-based trips, the Tacoma Mall regional center's travel characteristics are similar to the region as a whole. The region's single-occupant vehicle (SOV) share is 76 percent, while the center's share is 79 percent. The region's non-SOV mode share is 24 percent, with 10 percent in transit and 5 percent in walk/bike. The center's non-SOV share is 21 percent, with 7 percent in transit and 5 percent in walk/bike. The total daily trips from Tacoma Mall are slightly focused on destinations in regional centers (19% of all trips); this includes trips that stay within the center (9%) and trips that go to other centers (9%).

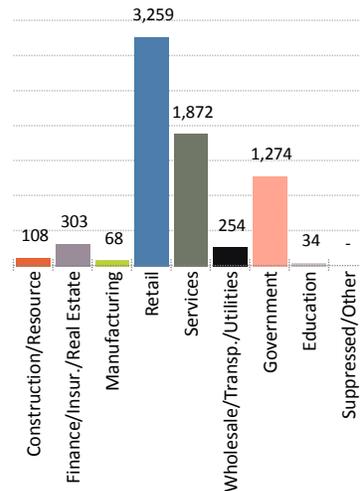

In terms of employee access to transit, Tacoma Mall has almost complete access, with 89 percent of employees within a 1/4 mile walk to a transit stop. For residential, Tacoma Mall has partial access, with 65 percent of housing units within a 1/4 mile walk. For the 1/2 mile walkshed, the center has complete levels of residential access to transit (100%).

Plan Overview and Comparison to Center Plan Checklist

The city's primary center planning document was reviewed to evaluate the extent to which the plan addresses topics in the PSRC Regional Center Plan Checklist. This policy-level review of the current plan is intended both to provide preliminary assessment of consistency of the plan with center guidelines and to evaluate the Regional Centers Checklist for any potential improvements.

Trip Destinations

Although the comprehensive plan has policies to guide development in the center, Tacoma does not yet have a specific subarea plan for its Tacoma Mall regional growth center. The city’s comprehensive plan provides several policies in the Generalized Land Use element that apply to the Tacoma Mall regional growth center within the context of the city’s hierarchy of mixed use centers. The Generalized Land Use element includes a policy specifically calling for the city to develop a subarea plan for this center. The comprehensive plan Neighborhood element also contains a section addressing South Tacoma subareas, including a discussion of the Tacoma Mall area.

Several aspects of the Regional Growth Center Plan Checklist have been addressed by policies in the comprehensive plan. The plan introduction includes a discussion on the role and expectations of regional growth centers, and the plan includes a commitment to develop a subarea plan for the center. Policies address planned housing and employment densities, though specific growth targets have not been set for the center yet. The Generalized Land Use element includes policies that call for pedestrian-oriented design, compact form and mix of uses, and an integrated transportation network.

The plan addresses items on the Regional Growth Center Plan Checklist, though there are topics that the comprehensive plan does not address or that could be strengthened through a dedicated regional growth center plan. This includes a market analysis and several land use topics on the checklist. As the city moves forward on planning for the center, additional detail could be provided on the economy, public services, and transportation strategies. Housing could also be further addressed in the plan, or references could be made to the center-related housing policies in the comprehensive plan provide more clarity regarding the housing strategy for the center.

Planning Challenges & Implementation Strategies

As noted by the city in a 2011 survey, Tacoma identified challenges relating to limited market demand, fragmented parcel ownership, enhancing bicycle and pedestrian facilities, and securing funding for local transit and mobility connections.

Tacoma has employed strategies to address challenges and plan for the success of the Tacoma Mall regional growth center, including increasing allowed building height and establishing design policies.
