

City of Tacoma
Planning and Development Services

You are invited to participate in the development of the Tacoma Mall Neighborhood Subarea Plan & Environmental Impact Statement (EIS). The City needs your input as we work toward a livable and prosperous future for the neighborhood.

Commercial Property and Business Owners Meetings:

Monday, September 12, 2016 – 1:00 to 2:30 pm
Tacoma Public Utilities Building, 3628 S. 35th Street – Auditorium Conference Room

Additional meetings are being scheduled on this topic. To be notified of these meetings and receive project updates, email tacmallneighborhood@cityoftacoma.org.

The Tacoma Mall Neighborhood is a designated center for jobs and housing growth. Over the past year, the City has worked with a broad range of community stakeholders to develop a vision and framework for action for the Neighborhood.

The overall intent is to promote jobs and housing growth, as well as positive change at many levels for this approximately 600 acre area. The project will result in a long range plan, implementation strategies and programmatic environmental approval for future development that is consistent with the plan.

Through the public engagement process, the City has heard there is interest in a focused discussion of issues of significance to commercial property and business owners. To that end, we are facilitating a series of meetings to seek your input. Proposals would affect zoning, infrastructure standards, and the future street network (including establishing new street connections across existing large parcels).
